INTERESTED IN WORK.

Marion teachers are interested in their work this session as seldom before, aided by the stimulus of good attendance on the part of pupils. This in itself is a great factor for success in school work, for the simple reason that class work is always on the advance, never lagging.

Superintendent Tate is very enthusiastic over the success of the schools this session, but however much he is pleased, is never satisfied, wishing to mount to still higher things, so he is steadily calling on teachers and pupils alike for greater effort, on part of the teachers for greater instruction, and on part of the pupils for greater knowledge.

Let us hope the excellent work will continue right on thru the session, as school time and school money is too precious to waste.

Correspondence from Whitwell signed "H. K. L." is consigned to the waste paper basket because unaccompanied by real name of writer. Articles for publication must be signed by writer, not for publication, but as an evidence of good faith.

Either everybody should vaccinate their hogs or none at all, and thus let the pig generation pass from the land. Hog cholera seems to have come to stay unless forceful methods are taken against it. Everybody should vaccinate their swine and drive it from the land.

We respectfully suggest that the cole barons be enjoined against.—Pig Hollow Scout.

AROUND THE WORLD WITH THE AMERICAN RED CROSS. At Saloniki.

The veritable mountains of relief supplies turned out by the millions of chapter workers during the war made the American Red Cross one of the biggest "manufacturing concerns" in the world, with great warehouse space at scores of strategic points all around the globe.

One of the biggest distribution centers was at Saloniki, Greece, and in this picture Bulgarian prisoners of war are seen there unloading a Red Cross cargo of 2,300 boxes from a French transport. At the right, is seen one of the American Red Cross caissons, fleets of which were used in rushing relief to points where the suffering was greatest.

He received three citations for gallant conduct while under heavy artillery fire. The exercises were held in front of the city hall, with 900 children attending and singing the national anthem. The cadets from Fitzgerald & Clark Military school acted as an escort of honor. The exercises were under the direction of Capt. B. R. Wilkins, the presentation being made by Maj. R. S. BRINGS BACK BUICK FOR HIGHWAY USE

Jasper, Nov. 18.—County Judge L. P. Brewer has just returned from a trip to Reelfoot Lake, where he had been the guest of a party of friends on a hunting trip. Speaking of that section he said it was his belief that it was going to be the coming oilfield of the country and second only to the great Texas fields. Going to Nashville also he brought back a Buick car to be used on this portion of the Dixie Highway by the engineers and other officials on inspection trips. Judge Brewer has been tendered the use of this car as often as it is not in official use. In coming from Nashville he had tough experiences with the roads, and said that fully 50 miles of the distance was covered in low and intermediate gear, testing out the good qualities of the machine.
